

FARO

PORTABLE GAS FIREPLACE

Gas Technology

BURNING TIME

Faro is very efficient. The maximum gas consumption is 0,4 - 0,5 kg/h which gives you up to 55 hours of burning time.

BLACK GLASS PEBBLES

CLEAN COMBUSTION

Faro emits no smell and smoke. It is designed to utilise sterilising fire and short-wave infrared radiance to eliminate surrounding airborne pathogens.

LOW OPERATION COST

The operation cost is only 0,45€/h.

HEAT OUTPUT

max 5.0 - 8.0 kW

FULLY PORTABLE

The castors help to move the fireplace from one place to another and rearrange the fire on your patio. Use the breaks to lock Faro in place.

GAS CYLINDER COMPARTMENT

The integrated compartment is designed to perfectly fit a standard gas cylinder.

OPTIONAL COVER

A dedicated fabric cover that protects the fireplace when not used.

Faro

(Gas Technology)

Fuel type	LPG
Heat output	max. 5.0 - 8.0 kW
Gas consumption	max. 0.4 - 0.5 kg/h burning time up to 55h
Gas pressure	37 mbar
Total gas hose length	1.4 meter <i>(measured from valve to pressure regulator)</i>
Weight	20 kg
Power supply	AAA battery powered control panel
Flue	not required
Flame height regulation	yes
Materials	galvanized steel, tempered glass
Decorative accessories	black glass pebbles
Application	for outdoor use only
